

# **Indoor Cycling Videos**

## **New**

## **==> for free <==**

**until March 9, 2014**

**at:**

**<http://indoor-cycling-videos.com/free4share/>**

Beautiful scenery training videos for your indoor cycling training on a

- Spin Bike
- Ergometer
- Turbo Trainer
- Stationary Bike

Watch the videos on your **computer, TV, iPad or other tablet** or on your **smartphone** while training.

The videos are recorded **cycling trips** from one town (the starting point) to another town (the arrival point) in rural Germany. You can even look up the locations on google maps and follow the streets and alleys to which the producer Cornelia takes you.

The videos are **pure scenery**. The footage doesn't display any performance targets. This makes them as flexible as possible for your cycling training. You can use them for your interval trainings session but also or for a rather recreational training.

Cycle in the sun while outside the rain is pouring down.

The website has launched on February 25, 2014.

You can find the 100% price reduction coupon code and the videos at:

**<http://indoor-cycling-videos.com/free4share/>**

This campaign will only run from 25. February till 9. March
